THOMSON REUTERS **PROVIEW**
THE eREADER APP BUILT FOR LAWYERS

WHAT MAKES OUR eBOOKS UNIQUE?

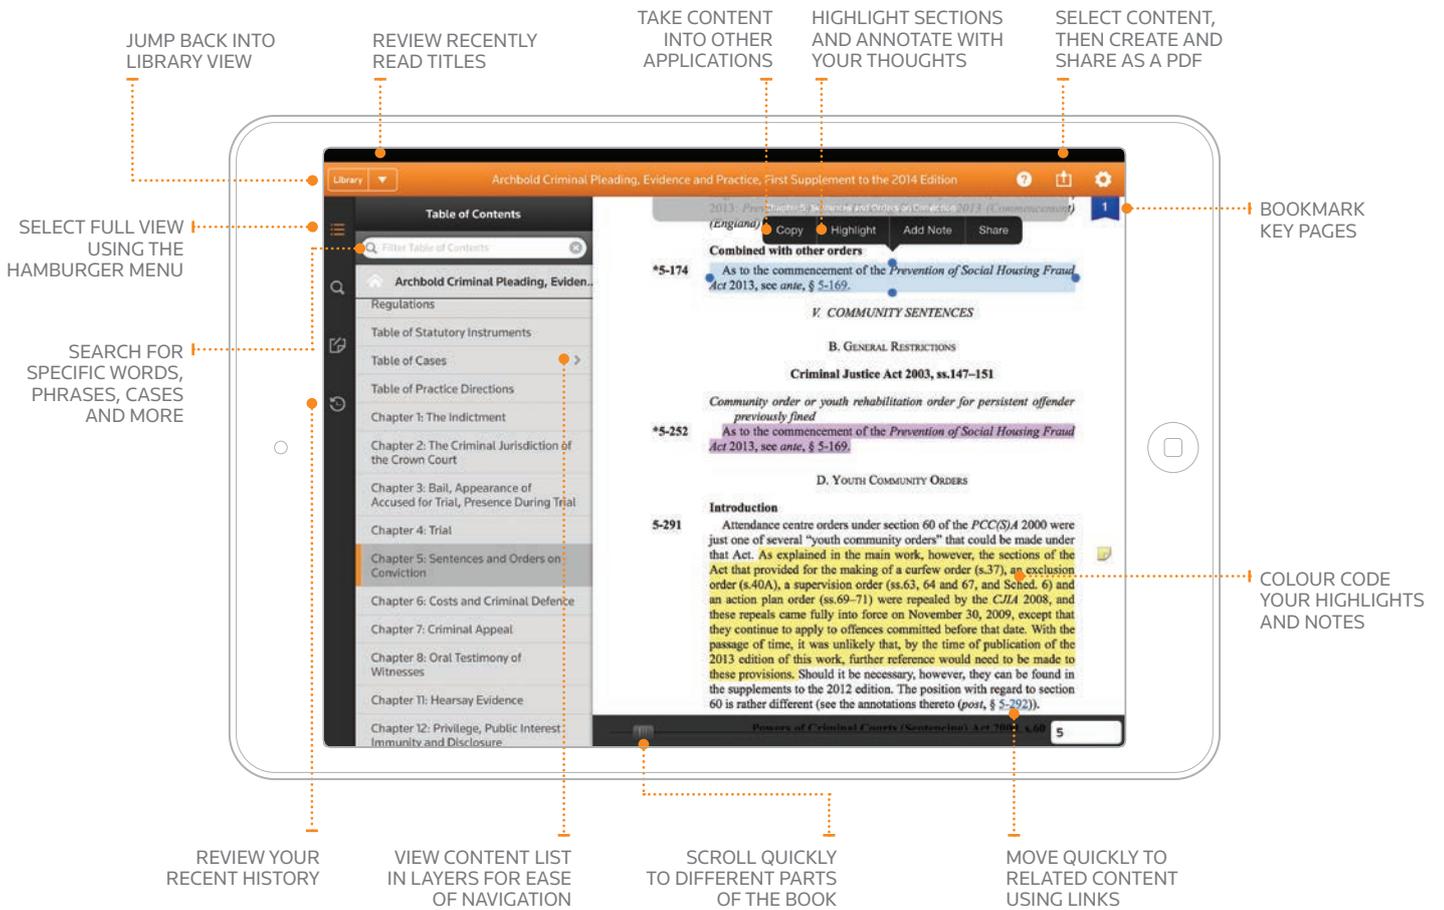

ProView breathes life into print content and lets you do things that no other eReader app can.

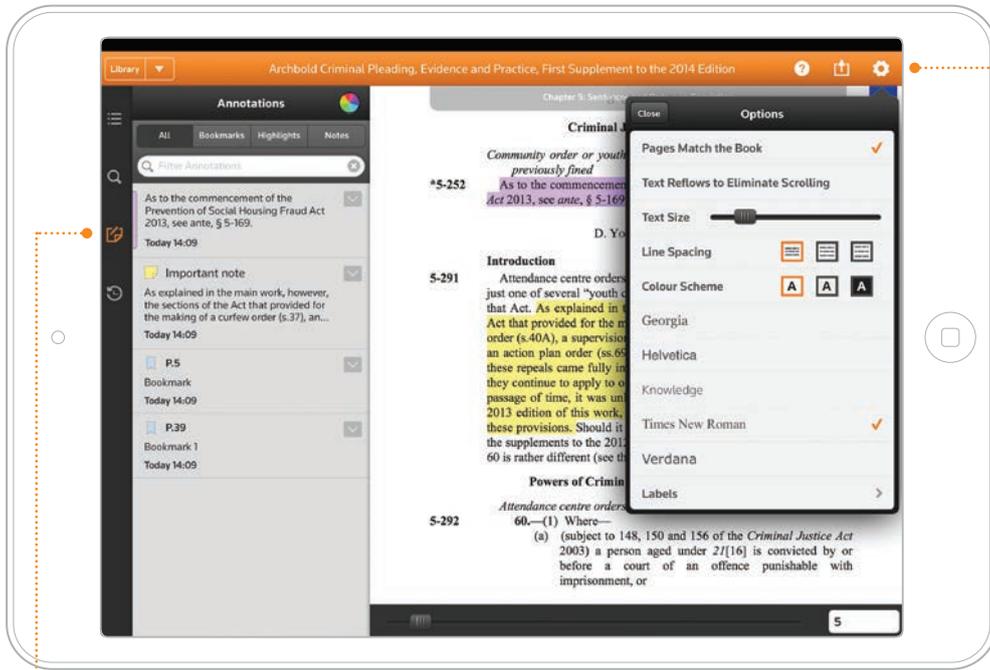

- › **Add your own notes and annotations** just as you would do to the hard copy version of the book
- › **Email, print and share** the text using the **copy and paste** tool. Lift text from the screen and place it in any other application or document you wish
- › **Powerful search** tools have been added so you can quickly find the piece of information that you are looking for
- › Jump to related content elsewhere in the eBook via **hyperlinks**
- › Quickly scroll through the eBook via use of a handy **navigation bar**
- › **View contents list in layers** for ease of navigation
- › **Colour code your highlights** and corresponding notes

We've also included all the usual eBook features – bookmarks, online and offline access, changeable font size and style, line spacing and screen brightness.

ProView works with both tablets and PCs, and ensures that the two are perfectly synced, so if you use your iPad in the morning and switch to your desktop in the afternoon you will see any notes or highlights right where you last made them and can pick up where you left off.
